As many parks are only a short distance from Nairobi International Airport Kenya is a perfect destination for day safaris or a longer multi park tour. Masai Mara National Park is the most popular of all Parks. But Kenya offers a startling array of different landscapes, climates to explore.

Next to seeing some of Africa's most iconic animals in their natural habitat, Kenya invites her visitors to go on culinary and cultural safaris. The more adventurous and active may even wish to climb Mount Kenya, Africa's second highest mountain.

### **Day 1: Nairobi to Amboseli**

After arrival in the morning drive to Amboseli National Park. The Park is famous for its big game and scenic beauty with the landscape dominated by Mt. Kilimanjaro. It offers an interesting contrast with its dry and dusty appearance, which can be attributed to the volcanic ash that came out of Mt Kilimanjaro when it last erupted. In spite of the appearance, there is a continuous supply of water that gets filtered through volcanic rocks from Kilimanjaro's melted snow. These streams flow underground, creating lush green areas, and converge at two clear water springs in the park.
