Uganda is home of over 1.000 species of birds and attracts many professional bird watchers every year. The glaciers of the Ruwenzori Mountains and their formation at Lake Mutanda in southwestern Uganda are also impressive and a paradise for Mountain climbers.

Visitors return to Uganda's welcoming people and the temperate climate.

The 52 tribes and their different languages, culture and dances, all living peacefully next to each other, set the country apart.

You can get in touch with the native people and the real rural life in one of the many community projects. Day 3: Boat safari on the Kazinga Channel

Start your day early with an early morning game drive. Please ask the hotel staff to pack for you breakfast so that you can find a nice spot en route. A popular route for the game drive is the Kasenyi sector, well-known for its lions that prey on Queen Elizabeth's large population of Uganda Kob (antelope). If you are very lucky, you may spot a Giant Forest Hog, Africa's largest pig. Keep your eyes peeled to spot an elusive leopard!

You could also opt for a **balloon ride and enjoy** a bird's-eye view over the Savanah (optional costs at the end of this program).

After your game drive, you will head back to the lodge for a few hours' relaxation by the pool and lunch.

In the afternoon, you will take a boat for a **water safari** on the Kazinga Channel at Mweya that connects the two lakes of Edward and George. This is likely to be

a big highlight of your trip! The expert Uganda Wildlife Authority guides will identify many of the Channel's 100 bird species and you're likely to see African Skimmers, Great White Pelicans, Spoonbill and a few Bee-eater species. Hippos wallow at the edge of the water, huge Nile crocodiles bask in the sun and elephants come down to drink.

The Kazinga Channel boat ride is a brilliant opportunity to take some close-up wildlife shots.

DAY 4: In Search of the tree climbing lions - Bwindi Impenetrable Forest

Today we drive to the Bwindi Impenetrable Forest and on the way take a short game drive through **Ishasha**, the southern sector of Queen Elizabeth National Park. On the vast plains of the Ishasha you will find a famous inhabitant, the tree-climbing lion. A sighting is not guaranteed, however, in the large low-hanging Fig Trees of Ishasha there are far better chances to see the lion, like in the rest of Africa.

Bwindi Impenetrable National Park is regarded as a UNESCO-Natural-World-Heritage and is one of the richest biological and botanical regions in the world. With its south-west position at the edge of the western Rift-Valley, this forest covers 331 km². The treasures of Bwindi are the approx. **400 wild Mountain gorillas**. They contribute to about half of the world population of these gentle human apes.
