

## 8 days North East Uganda

**There is no other country in Africa – like Uganda – the “Pearl of Africa.”**

In 1908, in his book *My African Journey*, Sir Winston Churchill wrote:

*"For magnificence, for variety of form and colour, for profusion of brilliant life — bird, insect, reptile, beast — for vast scale — Uganda is truly "the Pearl of Africa". The Kingdom of Uganda is a fairy tale. The scenery is different, the climate is different and most of all, the people are different from anything elsewhere to be seen in the whole range of Africa..."*

From its source in Lake Victoria, the Nile crosses the Rift Valley, which gives Uganda its different and unique habitats. Uganda's beauty, natural wonders and biodiversity have impressed many generations of travelers.

Visitors keep coming to Uganda for their warm people and pleasant climate. Uganda's biggest attractions include the endangered mountain gorillas, chimpanzees and over 1,000 bird species. Uganda's different habitats have delighted wildlife watchers and season-dependent Africa visitors for many years. Hikers and mountaineers have gathered in the Ruwenzori Mountains just like in the Mgahinga Gorilla National Park, where 3 of the highest mountains are located.

Wildlife and bird watching are especially known in Uganda's National Parks, one of the main attractions are the tree-climbing lions in the Queen Elizabeth National Park.

Nevertheless, there is so much more to see in Uganda: walking safaris, quad bike safaris, mountaineering and 5 star white water rafting are some of the adventure activities. As a small country by comparison, Uganda has won many awards including Destination Number 1 in Lonely Planet in 2012.

A unique experience awaits us today. We drive northeast to Moroto for about 5 hours and visit the Karamojong.

During our stay we have a lot to experience. The mountain ranges are quietly waiting to be discovered by adventurous travelers. The mountains are an exciting alternative to the otherwise strenuous climbs in Uganda with many attractions around it and a mild climate. No experience is required and no climbing equipment. In the late afternoon we embark on a Karamojong Cultural Tour with traditional village tour and a night in the kraal under the African starry sky. These experiences will be remembered forever.

### Day 4 Hike Mt Moroto

Today a half day hike of Mt Moroto is included.

The Mountains of Karamoja are an exciting alternative to the more strenuous climbs in East Africa with many of the same attractions, a milder climate, lower elevation and requires no special equipment. Our expeditions are a mix of rich encounters with the Uganda's highland people, breath-taking views and unique sights along the trails and unique places where you can enjoy the sunset, the stars and sunrise over the planes of Karamoja.

### Day 5 and 6 Drive to the most beautiful National Park of Uganda - Kidepo National Park

After a leisurely breakfast we continue to the Kidepo National Park. The Kidepo Valley National Park, embedded in the wild border region of Uganda, is apparently the most isolated national park in northern Uganda. However, it is still considered one of the best virgin places that any animal watcher can ever visit in Uganda. This pristine national park is undoubtedly one of the best wilderness areas in Africa and is home to a few extinct animal species that cannot be found in any other Ugandan national park. Kidepo is located in the middle of a savannah landscape, right next to some mountain ranges.
